# SAFETY DRIVEN.

RISING TO THE CHALLENGE WITH NEW SOLUTIONS TO **PROTECT YOUR CREW.**

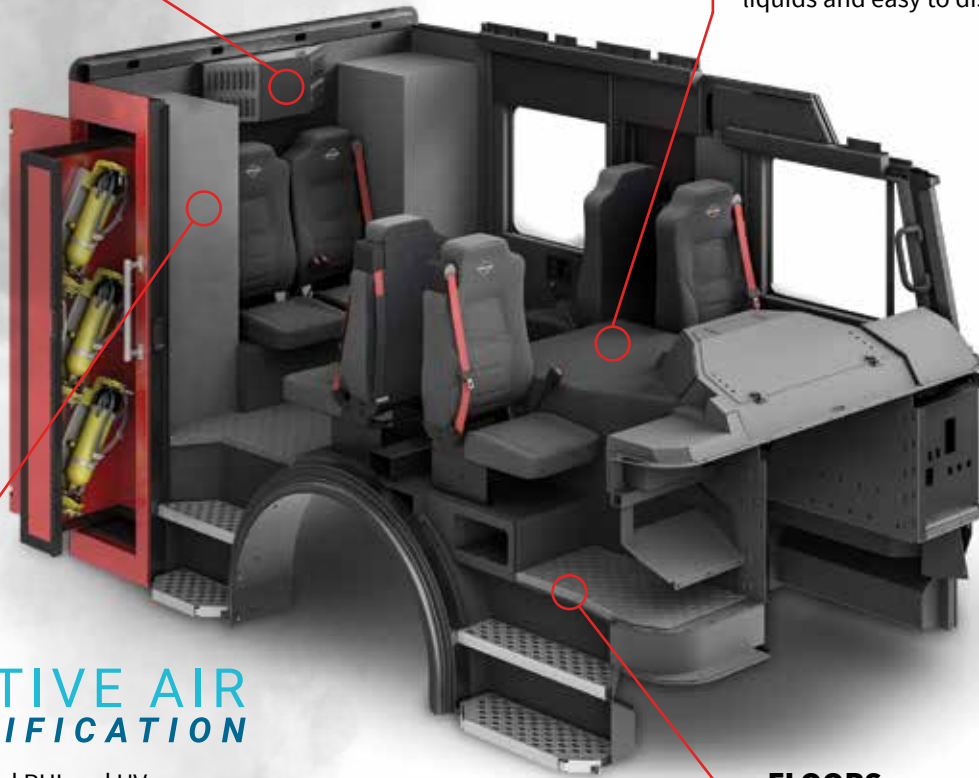

## ADVANCED FILTRATION SYSTEM

Filter out 99.97% of toxic particles and contaminants at a MERV 17 filtration rating which is equal to or better than most hospital operating rooms.

## EASY-TO-CLEAN INTERIOR

Durable aluminum surfaces coated with easy to clean paint are impervious to gases and liquids and easy to disinfect.

## ACTIVE AIR PURIFICATION

Advanced PHI and UV technology kills 99% of pathogens\*, including COVID-19, in the air and on surfaces delivering better air quality and a safer cab environment for your crew.

## FLOORS

Treadplate floors coated with Line-X eliminate stair nosing and allows for easy cleaning.

Edmond A. Rodriguez

It truly has been an honor to serve as your California Fire Chiefs Association President this past year. When we gathered at our annual meeting in late January, during which we focused on ways to serve our members in 2020, I couldn't have imagined it would be the last time the Full Board would meet face to face during my term. Despite the challenges we all have faced with COVID-19, the California Fire Service had another banner year. We would not have been able to accomplish our goals without a truly outstanding Executive Board, Executive Director, Area Directors, and the incredible consulting staff from AP Triton, Integrated Communications Strategies, Public Policy Advocates, Ray Ramirez Esq., and the law firm of Wright, L'Estrange and Ergastolo. Thank all of you again!

Some accomplishments this past year include:

- Continued funding for DRiSC pre-positioning and technology upgrades to support and modernize the California Mutual Aid System
- The Superior Court judgment ruling that CalEMSA's "underground regulations" are invalid
- The formation of the EMS Vision 2025 stakeholder group
- The inclusion of the Fire Districts Association of California in our E-Board meetings
- Implementation statewide of SB438 protecting fire-based dispatch services
- Development of reference materials on our website to meet EMS needs of our members
- Enhanced monthly communications to our members through the "President's Corner"
- Commitment to partner with the California Professional Firefighters (CPF) to work collaboratively on EMS matters statewide

Although I am proud to have been a small part of these successes, none of this would have been possible without the great work that our member agencies do every day protecting the residents, businesses and visitors of California, and without our great staff and consulting team.

Through the strong work of our Legislative Director, Chief Mike McLaughlin, we were able to keep funding going for DRiSC, Community Paramedicine and wildland protection efforts, despite limited legislative action due to COVID-19. We have continued the quarterly meetings with our major fire service stakeholders and Cal OES. We also meet with Dr. Duncan from CalEMSA on a quarterly basis to foster better communications on issues affecting the California Fire Service.

Lastly, I want to thank CPF President Brian Rice and California Professional Firefighters Association President Mike Shroul for the effective collaboration we have developed between our organizations. This collaboration is grounded in a unified front that is focused on enhancing our service delivery and our rights and obligations as the first responders for California.

As I transition to the Immediate Past President role on the CalChiefs E-Board this September, I am confident that we will strive and accomplish even greater things under the upcoming leadership of President-Elect Chief Dan Stefano and our next President-Elect, Chief Ray Gayk. They both have my utmost admiration and support for moving CalChiefs forward. As I begin to close out a 33-year career in our fire service and start my 37th year in emergency response, I wish all of you Godspeed.

Please continue to stay safe!

Sincerely,

A handwritten signature in black ink, appearing to read "Edmond A. Rodriguez".

**Edmond A. Rodriguez**

July 2020

## Immediate Past President Report

**Jeffrey A. Meston**

I want to express my thanks to the California Fire Service as I complete my term ending as Immediate Past President. We made a significant impact on longstanding issues through our lawsuit invalidating CalEMSA's "underground regulations," which was filed during my term as President. The California Fire Service's ability to provide emergency medical response is critical to the citizens we serve, and we are a significant provider of these services within our communities. Well done to CalChiefs Board of Directors for having the courage to invest funds to fight for our members' legal rights.

I believe that the political influence of CalChiefs as an organization is recognized and enhanced by relationships with our labor partner, California Professional Firefighters, and our allied agencies, Fire Districts Association of California, League of California Cities Fire Chiefs Department, California Metropolitan Fire Chiefs, FIRESCOPE, and California State Firefighters Association (CSFA).

As a longtime member of CalChiefs, it has been an extreme honor serving on the Board of Directors to help shape the direction of the California Fire Service, building life-long friendships and representing the fine work of all fire agencies within the State of California. No board member could serve without backing from his or her organization. For my time on the CalChiefs Board, this included the Novato Fire District, when I was a Director, South Lake Tahoe Fire Rescue, and CalOES Fire/Rescue.

Thank you for this honor. It has been a highlight of my 40-plus year career. I feel blessed to be able to continue working closely with CalChiefs and DRiSC in my new role as Executive Director of CSFA. Be smart, be safe and be nice.

**Jeffrey A. Meston**

## President-Elect Report

**Daniel A. Stefano  
President-Elect  
California Fire  
Chiefs Association**

It is a great honor to begin serving as your President, shoulder to shoulder with our extremely talented and hard-working Executive Board, full Board of Directors, Section Leadership, President-elect Ray Gayk and Executive Director Tracey Hansen. I'm grateful for our entire team! While no one could have anticipated a year ago that we would now be navigating a far-reaching pandemic storm, including a range of complex and polarizing issues, I can say without hesitation that our collective leadership team did not miss a beat. We look forward to addressing the challenges and opportunities ahead!

We have made some phenomenal progress in a number of areas over the past several years, built on our valued partnerships, the outstanding efforts of CalChiefs' leadership teams, and those of you who have been actively engaged to help us move forward, together! Thank you for that!

As we map out our vision for the year ahead, we will continue to drive the core elements of our strategic direction, covering our three primary initiatives of 1) Advocacy, 2) Membership Services, and 3) Improvement of Communications. Within this framework, the following items will be a few of our primary areas of emphasis.

We will be unrelenting in our focused advocacy for the California fire service, building on our legislative and legal successes over the past few years, all of which are a result of heavy lifting through the collaborative efforts of CalChiefs' leadership teams, the DRiSC coalition, California Professional Firefighters (CPF), our Joint Legislative Task Force, our extraordinary consultants and other key partners. To that end, fire service prehospital EMS, local control, community paramedicine, firefighter health and safety, and comprehensive wildfire/disaster response enhancements will be at the forefront of our advocacy efforts.

We will continue to lead from a path on higher ground as our primary approach, but we will not pause to professionally enter any trenches of engagement with thoughtful, unambiguous and resounding impact! Simply put, we will ensure that the best interests of our membership, our organizations, California's fire

service, and the best interests of the diverse communities and people whom we serve are not compromised or marginalized in any way, shape or form.

We will also continue to place the highest priority on our people, particularly as it relates to behavioral health, wellness and cancer prevention throughout the California fire service. We will also remain committed to strengthening our highly valued relationships, including, but not limited to, the Fire Districts Association of California (FDAC), California Metro Chiefs, CPF, California State Firefighters Association (CSFA), the League of California Cities Fire Chiefs, the Governor's Office, Cal OES and CAL FIRE, among others. When it comes to internal membership, our attention will be geared to build on the outstanding work being accomplished in our respective Area and Section efforts, including a smooth reset back to in-person meetings and conferences in 2021. We will also look at every opportunity to enhance our communication efforts, internally and externally, in any way we can.

With significant retirements and departures in the Chief Officer and Company Officer ranks statewide, we will be working hard to actively address and effectively prepare for our succession needs, while at the same time making certain that the substance of our institutional knowledge remains fully intact.

In closing, I want to express a special thank you to Chief Ed Rodriguez, who will serve on the CalChiefs Executive Board and full Board as Immediate Past President in the coming year. He has done an absolutely exceptional job serving and leading CalChiefs during his tenure. Chief Rodriguez raised the bar for CalChiefs, and for that we are grateful! I also want to express my thanks to Chief Jeff Meston, who transitions out as Past President, but continues to be a vital part of CalChiefs' leadership legacy. Lastly, thank you, again, members for the opportunity to serve as your President!

Respectfully,

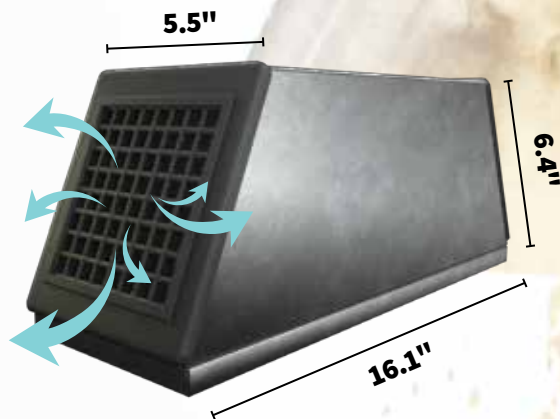

**Daniel A. Stefano**

# ACTIVE AIR PURIFICATION

with RGF® PHI technology

## Rising to the challenge with new innovations to keep your crew safe.

Designed with advanced photohydroionization™ and UV technology, the system kills 99% of pathogens\*, including COVID-19, in the air and on surfaces delivering better air quality and a safer cab environment for your crew.

### Advantages.

- Sanitizes air and surfaces
- Safe for all passengers
- Lowers overhead cost of traditional disinfectants
- Millions in service globally

### Advanced Technology.

The system utilizes active technology to distribute H<sub>2</sub>O<sub>2</sub> which sanitizes the occupied space and requires no operator or application.

### Safe.

Safe levels of naturally occurring hydroperoxides increase the air quality creating a cleaner environment without damaging interior surfaces.

\* Active Air Purification helps mitigate infection risk but should be used in conjunction with procedures in compliance with NFPA 1581 Standard on Fire Department Infection Control Program or equivalent department policy. This device does not claim to treat or reduce fire ground contaminants.

Contact your local REV Fire Group Dealer on New Truck, Fire Station, or After-Market Applications

## Acknowledgements

The first edition of the Strategic Direction would not have been possible without the dedication and time of the Board of Directors, Area Directors, and the officers of the California Fire Chiefs Association sections, including the following participants:

### Executive Board

- Jeff Meston, President
- Edmond Rodriguez, President-Elect
- Mark Hartwig, Past President
- Mark Heine, Treasurer
- Steve Prziborowski, Northern Director
- Dan Stefano, Southern Director
- David Rocha, Member-at-Large
- Mike McLaughlin, Legislative Director
- Tracey Hansen, Executive Director

### Area Directors – North

- Cullen Kreider, Area 1
- Bill Hack, Area 2
- Niko King, Area 3
- John Binaski, Area 4
- Bill Gillespie, Area 5
- Anthony Gossner, Area 6

### Area Directors – South

- Rob Heckman, Area 1
- Bertral Washington, Area 2
- Tim Shackelford, Area 3
- Edward Hadfield, Area 4
- Trever Martinusen, Area 5

### Section Presidents

- Lynda Vargas, AFSS North
- Janet Arthur, AFSS South
- Melinda Hunley, Communications
- Steven Hall, Emergency Management
- Dustin Hall, EMS
- Jessica Power, FPOs North
- Patricia Koch, FPOs South
- Rick Noguera, Mechanics North
- George Solano, Mechanics South
- Dan Munsey, Operations
- Alan Ernst, TOs North
- Chris Coates, TOs South

### Section Leadership

- Janice Parker
- Bernie Molloy
- Jeff Armstrong
- Maria Koolhoven
- Tony Bulygo
- Eric Munson
- Kim Roderick
- Troy Bair
- Jason Nailon
- Valerie Erwin

## Acknowledgements

This strategic direction update was completed with the effort and dedication of the Executive Board of Directors, Area Directors, and the officers of the California Fire Chiefs Association sections including the following participants:

### Executive Board

- Edmond Rodriguez, President
- Dan Stefano, President-Elect
- Jeff Meston, Past President
- Mark Heine, Treasurer
- Chris Tubbs, Northern Director
- Ed Hadfield, Southern Director
- David Rocha, Member-at-Large
- Mike McLaughlin, Legislative Director
- Tracey Hansen, Executive Director

### Area Directors – North

- Cullen Kreider, Area 1
- Bill Hack, Area 2
- Niko King, Area 3
- John Binaski, Area 4
- Bill Gillespie, Area 5
- Anthony Gossner, Area 6

### Area Directors – South

- Rob Heckman, Area 1
- Bertral Washington, Area 2
- Ray Gayk, Area 3
- Don Butz, Area 4
- Trever Martinusen, Area 5

### Section Presidents

- Lynda Vargas, AFSS North
- Maria Koolhoven, AFSS South
- Melinda Hunley, Communications
- Steven Hall, Emergency Management
- Dustin Hall, EMS
- Eric Munson, FPOs North
- Jason Nailon, FPOs South
- Rick Noguera, Mechanics North
- George Solano, Mechanics South
- Dan Munsey, Operations
- Alan Ernst, TOs North
- Chris Coates, TOs South

## VISION

Be the Voice of the California Fire Service

## MISSION

To strengthen and advocate for the California Fire Service through leadership, unity, and collaboration.

## VALUES

Integrity  
Professionalism  
Credibility  
Innovation  
Competency

## SECTIONS

In addition to membership in the California Fire Chiefs Association parent organization, the following Sections are part of our larger Association. Each Section has their own Board members and maintains their own membership and by-laws.

Administrative Fire Services Section (AFSS)  
Communications  
Emergency Management  
Emergency Medical Service (EMS)  
Fire Mechanics  
Fire Prevention Officers (FPOs)  
Operations (Ops)  
Training Officers (TOs)  
Metro Chiefs

## ENVIRONMENTAL SCAN

To properly formulate an update of the CalChiefs strategic initiative, each section was asked to go to their board and develop a Strength / Weakness / Opportunity / Threat (SWOT) analysis and bring that information to the two-day CalChiefs planning session, initiated on January 24-25, 2019 and updated on January 9-10, 2020;

### STRENGTHS

Strengths of the organization were identified as the following:

- Membership is strong
- Networking opportunities
- Subject Matter Experts in the field of fire and life safety
- Establishment of strong partnerships
- Value to our membership

### WEAKNESSES

Weaknesses of the organization were identified as the following:

- Lack of membership participation and involvement
- Communications throughout the organization
- Lack of succession planning for the organization
- Every fire agency in California should belong
- Lack of ability to demonstrate the value of the organization

## OPPORTUNITIES

Opportunities for the organization were identified as the following:

- Training and working closer with the sections
- Social media opportunities
- The technological evolution
- Branding and marketing the organization
- Increasing membership and participation

## THREATS

Threats to the organization were identified as the following:

- Funding the organization to be relevant within California
- Lack of succession planning
- Recruitment and retention of members
- Lack of direction

## CALIFORNIA FIRE CHIEFS ASSOCIATION (CFCA) INITIATIVES

### Initiative 1 – Advocates

CFCA should serve as an advocate on fire and life safety matters within California.

- Establish legislative priorities prior to the January planning meeting. This task needs to be completed in the months of November and December each year to meet the legislators' calendar for bill submittal.
- CFCA should collaborate with the other Fire Service leadership groups to develop its legislative priorities.
- CFCA should develop a comprehensive legislative tool kit for local fire chiefs that would include issues, talking points, and legislative contacts. The goal is to make it easy for local fire chiefs to be informed and effective when dealing with their local legislators.
- Develop a legislative process and issue segment for each annual conference. The goal would be to educate members on issues, problems, and resolutions.

The following legislative issues have been identified as part of a work plan for the 2019 legislative session. Some items may have to carry over to a subsequent legislative session. CFCA's ability to be successful will include development of alliances with labor and other governmental agencies and groups.

- Continue the DRiSC efforts which include response to urban conflagrations and other natural disasters - *Achieved through AB 74 (Ting)*
- EMS Act clarifications - *SB 438 passed, further work needed on the act*
- Clarification of Medical Control - *ongoing work*
- Clean up of First Responder Fees - *continue in 2020*
- Federal funding to an IGT program - *achieved through AB 1705*
- Long-term SETNA 911 funding program - *permanent funding with SB 96*
- Community paramedicine - *continued into 2020 with CPF*
- Behavioral Health and Critical Incident Stress programs - *AB 116 (Grayson) and SB 542*

# Strategic Direction 2020-2025

CFCA should continue its legislative work from 2019 and remain vigilant to upcoming issues with its DRiSC partners and CPF.

CFCA should strive to maintain a fire service delivery system that embraces federal and state staffing levels, preserves the public employee retirement system and preserves firefighter safety for mutual and automatic aid responses.

## **Initiative 2 – Membership Services**

CFCA should focus on, and improve efforts to, membership services to ensure that California has a world-class fire and life safety delivery service.

Improve education on specific CFCA issues to include advocating for the membership by providing well-documented positions that can easily be shared with fire chiefs and the media.

Educate the membership to educational opportunities that allow for succession planning, such as the Chief Officer Leadership Symposium held in conjunction with the Training Officers annual conference.

CFCA Area Directors should serve as a two-way conduit with local fire chief associations for communications about local and statewide issues and concerns.

CFCA should establish a membership goal to include 100% of all fire departments within the State of California.

CFCA should update the Member Benefit section to include re-naming it to “Why You Should Belong” and revising the content.

CFCA should establish a formal “Rapid Deployment Team” for specific and relevant issues of concern to members. This RDT should be experienced and available to help on issues as they arise for local members and associations.

CFCA should develop a survey to determine what its members want, expect, and need. The survey should be compiled and acted upon by the Board of Directors and reported out at the annual meeting.

The CFCA’s Executive Board should continue to provide presidential support to sections with installations or attendance to local conferences.

Area directors should assist with the recruitment of members and providing information specific to the mission of the CFCA.

CFCA should be a partner in the development of a fire service directory and work with Fire Districts Association of California and Cal OES. This initiative should be refined in 2020.

CFCA should evaluate the option of adding a “Members Only” component to its website. This initiative should be refined in 2020.

CFCA should work with the Sections to determine the value of section membership. An example is the mechanics certification that is offered through the Mechanics section and is a cost-effective way for mechanics to become certified.

CFCA should publish an events calendar. This is dependent on the sections providing relevant information.

CFCA should develop a CFCA Orientation Guide. This initiative should be refined in 2020.

CFCA should encourage Fire Chiefs to allow its fire department members to serve on the sections for career development and the overall good to the California fire service.

CFCA should determine if there could be an incentive to encourage members to serve on boards and subsections.

CFCA should develop a fire chief information sharing system similar to the “baggers group” working with FDAC to deliver a pilot program in 2020.

CFCA should develop a relationship with public owned utility services to work towards fire safe delivery models, and to ensure that public safety power shutoffs do not negatively affect the communities we serve.

CFCA and its DRiSC should build a stronger relationship with Rhys Williams in the Governor’s Office.

## **Initiative 3 – Improvement of Communications**

CFCA should establish a Public Information Officer (PIO) directory within the association to share critical information on topical fire and life safety issues.

CFCA should continue to reinforce local government’s role on significant issues and incidents through improved communications. California citizens need to know that the mutual aid system is made up of primarily local governments (often 70%-80% of the resources on any major mutual aid event).

CFCA should develop a message and benefit to the upcoming dues increase, highlighting past successes and future goals.

CFCA should reinforce that those serving on the Executive Board and as Area Directors and Section Presidents should use CFCA e-mail addresses to conduct CFCA business.

CFCA should establish a committee to recommend how to improve communication between the parent body and the subsections. The committee should respond back to the Executive Board no later than January 10th, 2021.(completed)

CFCA should disseminate detailed relevant information on issues as they arise.

CFCA should develop a multi-media approach to sharing information including social media to its membership.

CFCA should continue to develop and utilize communications tools to enhance our membership outreach, such as the “Presidents Corner” established by President Rodriguez.

CFCA should expand its website to include a “Members Only” section to assist our membership.

CFCA should utilize the Administrative Services Section as a primary point of contact to help get information to the Fire Chief, including renewal information.

CFCA should implement a mid-year meeting in a rotating location to better inform our membership in our rapidly changing world.

## 2019 Strategic Direction Update

2019 was a very successful legislative year, with special thanks to Legislative Director Mike McLaughlin and our consultants PPA, HASC (now Integrated Communications Strategies) and AP Triton. Governor Newsom has made a dramatic impact on the delivery of fire services particularly after the devastating fires that the state has experienced over the last 3 years.

CFCA completed a variety of steps necessary to ensure that the organization is strong, DRiSC remains a viable forum for our fire service partners and that our relationship with CPF remains strong.

The CFCA Board of Directors is committed to revisiting the strategic direction and updating it annually.

**WE TAKE CARE OF THE GEAR THAT TAKES CARE OF YOU**

# CalChiefs 2020-2021 Membership

## Membership Rates – FY 2020-2021

For current Fire Chief and Chief Officer members, CalChiefs appreciates your support and hopes that you will continue to support CalChiefs through membership.

For those Fire Chiefs and Chief Officers who are not yet members, please consider becoming a member and supporting the efforts of CalChiefs to maintain and improve the delivery of emergency fire and medical services in California.

The CalChiefs membership cycle is from July 1st through June 30th each Fiscal Year. Memberships may be paid online through our website or by check mailed to our office. **CalChiefs memberships are tiered based on the full-time employee (FTE) count (sworn and non-sworn) at the fire department/district. Please reference the chart below and select the tier that applies.**

For information about memberships please contact Executive Director Tracey Hansen at traceyhansen@calchiefs.org or 916.923.9455.

Membership in each of CalChiefs' nine (9) Sections is a separate membership process for each section. If you desire to become a member of one of our sections, please select the following link to CalChiefs Sections.

### CalChiefs Annual Membership Rates

	FTE Personnel	20/21 Rate	Number of Group Memberships with Rate
Tier 1	1-15	\$411.90	+ 1
Tier 2	16-50	\$988.14	+ 2
Tier 3	51-100	\$1235.10	+ 3
Tier 4	101-150	\$1646.70	+ 4
Tier 5	151-200	\$2305.26	+ 5
Tier 6	201-300	\$2830.05	+ 6
Tier 7	301-400	\$3293.10	+ 7
Tier 8	400+	\$4116.30	+ 8
	Addl. Group Member	\$123.78	
	Volunteer Fire Chief	\$123.78	
	Associate (Business)	\$658.86	
	Section Presidents	\$411.90	
	Lifetime Member	Free of Charge	

*Payment by check results in roughly a 3% discount from the rates posted*

# **SUPERIOR PERFORMANCE.** **MAXIMUM MANEUVERABILITY.**

KME Tractor-Drawn Aerials (TDA) are known for their **maneuverability** with the **shortest wheelbase** and overall length available in the industry. Choose from two models, a 100' ladder with no waterway or a 101' ladder with a pre-piped waterway. Transform your TDA into an NFPA 1901 compliant quint with the addition of a pump and tank that gives you the **flexibility** your department needs.

# California Fire Chiefs Association Treasurer's Report

Our Fiscal Year 20/21 Budget can be found on the budget page of this annual report document. Our monthly financial reports are reviewed by your Executive Board as a standing monthly agenda item. We strive to be prepared for current and predicted financial impacts to the organization. The initiatives that we are engaged in can be expensive. Our strong financial strategic planning and your strong support as members ensure our preparedness for current and future challenges.

Our annual revenue streams are derived from membership, annual conference participation, and our investment strategy.

Membership accounts for a large percentage of our operating budget. Our membership drive efforts this past year have been successful in maintaining this critical revenue stream. We are thankful for our member agencies and their continued participation and support of the CalChiefs' mission. Your membership allows us to remain fully engaged on your behalf in the many issues, opportunities and threats that face the California fire service. Your approval of a dues increase in 2018 (implemented in 2019) has enhanced our services.

Unfortunately, we had to cancel our annual conference this year due to the COVID-19 crisis. The conference provides an important revenue stream for us and the lack of conference revenue will pose a fiscal challenge. We are eager to get our annual conference back on track and are conducting ongoing contingency planning for an opportunity to hold our conference when the COVID-19 crisis resolves.

Our strong collaboration with Metro Chiefs, FDAC, CSFA, League of California Cities Fire Chiefs Department and CPF provide us an opportunity to manage costs for shared coalition initiatives, such as the DRiSC coalition and our strong legislative efforts in EMS.

Our investment strategies have been successful. The strong market has resulted in reasonable gains in our investment revenue. Our investment revenue has helped fund enhanced work to achieve goals in critical areas. Some of those goals include, but are not limited to, Office of Administrative Law (OAL) petitions and litigation success, as well as an enhanced focus on legislative efforts, all of which have protected the rights and obligations of the California Fire Service. These critical efforts have required balance transfers from our investment accounts to balance the operating budget.

Looking ahead, we need our members to renew their membership annually and recruit new members. We encourage you to help us by spreading the word about the good work CalChiefs is doing on behalf of its members.

## *Ronny Jack Coleman Fire Chief of the Year Award*

**David Rocha**

The 2019 recipient of the Ronny Jack Coleman Fire Chief of the Year is David Rocha, Fire Chief for the Alameda County Fire Department between 2014 and 2020. Chief Rocha began his fire service career in 1987. During his tenure, he also held the rank of Firefighter, Fire Inspector, Engineer, Captain, Battalion Chief, Assistant Fire Chief, and Deputy Fire Chief.

During his career, Chief Rocha was intimately involved with exploring different service models for EMS. He worked tirelessly to provide a variety of transport opportunities for the citizens served. He demonstrated an uncanny ability to balance the needs of his department and make sure that those needs align with the needs of the citizens and communities the department serves. Rocha always considered all facets of issues and the long-term effects of decisions made.

Chief Rocha was actively involved at the local, regional and statewide levels. He served as Chair of the California Metropolitan Fire Chiefs, a member of the California Fire Chiefs Association Executive Board, the Cal OES Region II Coordinator for Fire & Rescue, President of the Alameda County Fire Chiefs Association (ACFCA), and a member of the California Fire Service Task Force on Climate Impacts. He has been a strong advocate and voice on statewide issues, including the state Mutual Aid System, participating in the DRiSC initiative and pre-deployment of local government resources. On May 31, 2019, Chief Rocha was appointed by Governor Newsom to the State Board of Fire Services in a seat designated for a metropolitan fire chief. The California Metropolitan Fire Chiefs include the 16 largest municipal fire departments in the state.

Chief Rocha played an integral role in consolidation efforts in Alameda County geared at achieving regional efficiencies in the delivery of fire services dating back to the early 1990s. In addition to achieving regional efficiencies within the fire service He played a pivotal role in incorporating dispatch agencies for a more effective and efficient service. This incorporated dispatch center dispatches not only for fire apparatus, but also dispatches ambulances throughout the service area and acts as the coordinator of all OES Region responses. As a key member of the county's executive team, Chief Rocha was able to collaborate across diverse stakeholder groups including labor leaders, elected officials, and city and county leadership.

Chief Rocha served his department, the communities, and the citizens of our jurisdictions by truly embodying ACFCA's core values: members, organization, customer service, strategic management, and regional cooperation. He demonstrated a strong commitment to the department members, fostering a partnership with its labor organization, and collaborating with AFCD's contract agencies. These same core values translated into his efforts at the state level, as well. He worked tirelessly to further the California Fire Service so that our state's citizen's and visitors are served well and safer as a result.

Please join us in congratulating the 2019 Ronny Jack Coleman Fire Chief of the Year – Fire Chief David Rocha of the Alameda County Fire Department (retired August 2020).

# The Ronny Jack Coleman Fire Chief of the Year Award

The California Fire Chiefs Association established the Ronny Jack Coleman Fire Chief of the Year award in 2000 to recognize an outstanding leader in the fire service community. The award, named after retired State Fire Marshal Ronny Coleman, seeks to recognize an individual who is a role model for all fire chiefs in the state.

To nominate someone, you must submit a cover letter outlining the special qualities and abilities of your nominee, along with an attachment (resume) that follows the career of your nominee. **Special emphasis for consideration will be placed on the following:**

- Fire service leadership and management *locally, regionally and statewide*
- Active participation in professional organizations and/or serving on task forces, committees, boards and/or commissions (such as CFCA, FDAC, League of Cities, IAFC, STEAC, etc.)
- Training and education
- Fire prevention, code enforcement, and public education activities
- Community involvement with civic groups and organizations
- Must be a member of CalChiefs for at least two (2) years
- Must be employed as fire chief at the time of nomination

Once all nominations are received, the CalChiefs Executive Board will review them to verify they meet the above criteria. The Board will then select the top nominee who will be awarded the Ronny Jack Coleman Award at the President's Breakfast, held during our Annual Conference.

**\*\*In the event the Committee does not reach consensus on a selection, or nominations don't meet the above criteria, there will not be an award.\*\***

# 2020 Legislative Report

PUBLIC POLICY ADVOCATES LLC

## California Fire Chiefs Association 2020 Legislative Report (September 11, 2020)

The 2020 legislative year will long be known as the COVID-19 Session. On two occasions, the Legislature was forced to suspend operations in the Capitol due to the pandemic. Faced with limited time for committees to process bills, legislators pared down their bill loads to focus on the highest priority measures. Further, the State Budget process had to be retooled to deal with the massive shortfall in revenues.

As in prior years the Joint Legislative Task Force, consisting of leaders of both the CFCA and FDAC, analyzed and monitored hundreds of bills of significance to the fire service. Although it became difficult to make personal appearances in the Capitol, the Task Force members participated in committee hearings online and by phone. Their effort, and support from both Boards have led to another successful year in Sacramento.

Below please find a concise list of priority bills, by subject matter, tracked by the FIRE Task Force in 2020:

## Building Permits/Standards

**Assembly Bill 1923 (Salas)** would have required the Department of Housing and Community Development to consider proposing for adoption by the California Building Standards Commission a requirement that seismic gas shutoff devices be installed in newly constructed buildings. *Status: 08/20/2020 Held in Senate Appropriations Committee.*

**Assembly Bill 2553 (Ting and Berman)** will extend the current emergency shelter pilot program to all cities and counties and sunset the program on January 1, 2026. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 2960 (Gipson)** will codify Directive 45 for emergency shelter operation in Los Angeles. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 902 (Wiener)** would have had a city or county to pass an ordinance to zone any parcel for up to 10 units of residential density per parcel in transit-right or jobs-rich areas and would exempt the ordinances from CEQA. *Status: 08/20/2020 Health in Assembly Appropriations Committee.*

**Senate Bill 1120 (Atkins)** would have required cities and counties to permit ministerial review of a duplex or subdivision of a parcel into two equal parcels. *Status: 08/31/2020 Failed deadline (Senate Concurrence).*

## Communications

**Assembly Bill 1945 (Salas)** will define first responders to include public safety dispatchers, telecommunicators and emergency response communication employees. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 2421 (Quirk)** will allow a local agency to administratively review an application to install an emergency standby generator at an existing macro cell tower site. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 431 (McGuire and Glazer)** would have required the PUC to develop and implement backup power rules for telecommunication services that are provided in Tier 2 or Tier 3 High Fire Threat Districts. *Status: 08/20/2020 Held in Senate Appropriations Committee.*

**Senate Bill 773 (Skinner)** would have modified the makeup of the State 9-1-1 Advisory Board. *Status: 08/14/2020 Failed deadline (Assembly Governmental Organization).*

**Senate Bill 1069 (Jackson)** would have expanded reporting requirements on outages from telecommunication companies. *Status: 06/19/2020 Failed deadline (Senate Appropriations).*

## Emergency Medical Services

**Assembly Bill 1544 (Gipson)** will create a Community Paramedicine or Triage to Alternate Destination Act. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 2450 (Grayson)** will extend the assessment of penalties and use for funding for air transport under the Emergency Medical Air Transport Act. *Status: 08/31/2020 Enrolled; awaiting action by Governor Newsom.*

## Emergency Planning

**Assembly Bill 291 (Chu)** would have established a new fund to support planning of mitigation projects to assist local governments to become better prepared to meet emergency management preparedness, readiness and resilience goals. *Status: 08/18/2020 Failed deadline (Senate Governmental Organization Committee).*

**Assembly Bill 2076 (Bigelow)** would have required the Director of Parks and Recreation to develop a wildfire management plan for all their property located within a high or very high fire hazard severity zone. *Status: Failed deadline (Senate Natural Resources & Water Committee).*

**Assembly Bill 2167 (Daly and Cooley)** would have authorized the Insurance Commissioner to establish an insurance market action plan to expand insurance policies in the WUI contingent upon inclusion of a catastrophic risk model. *Status: 08/24/2020 Failed; Senate Third Reading File.*

**Assembly Bill 2213 (Limón)** will require Cal OES to develop model guidelines to identify community resources that could assist in responding to natural disasters. *Status: Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 2386 (Bigelow and Aguiar-Curry)** will require Cal OES to annually review 10 local emergency plans to determine if they conform to best practices as determined by FEMA. *Status: Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 2968 (Rodriguez)** will require Cal OES to establish best practices for counties developing and updating their emergency plan. *Status: 08/28/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 182 (Jackson)** will create additional fire hazard planning responsibilities on cities and counties to make findings before taking development actions in very high fire risk areas, including related fire planning and review by multiple agencies and, at the request of the fire service, would create a grant program for small jurisdictions to implement the requirements set forth in the bill. The bill also was amended to provide time to phase in the various review programs established by the bill. *Status: 08/31/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 292 (S. Rubio)** would have required the Insurance Commissioner to complete a study on wildfire risk and insurance, including market-based approaches by July 1, 2022. *Status: 08/31/2020 Failed (Assembly Inactive File).*

**Senate Bill 474 (Stern)** would have prohibited the approval of new development in very high fire severity zone or in the SRA. *Status: 08/14/2020 Failed (Assembly Local Government Committee).*

**Senate Bill 801 (Glazer)** would have required utility companies to provide backup electrical resources to protect vulnerable populations. *Status: Failed (Assembly Utilities & Energy Committee).*

**Senate Bill 862 (Dodd)** would have defined a public safety power shutoff as a state of emergency and added specified protocols on all electrical corporations regarding such events. *Status: 08/14/2020 Failed (Assembly Utilities & Energy Committee).*

**Senate Bill 909 (Dodd)** will authorize an emergency vehicle to be equipped with a “hi-lo” audible warning system to be used exclusively to warn the public of an immediate need to evacuate. The bill has been amended to add an urgency clause to allow it to become effective immediately upon enactment. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 952 (Nielsen)** would have exempted from state and local sales and use tax backup generators used by local governments during de-energization events. *Status: 06/29/2020 Failed (Assembly Revenue & Taxation Committee).*

**Senate Bill 1312 (McGuire and Stern)** would have required the PUC to provide for expedited undergrounding of electrical lines by utilities in designated areas to promote fire prevention and reduce public safety power shutoffs. *Status: 08/14/2020 Failed (Assembly Utilities & Energy Committee).*

## Emergency Response

**Assembly Bill 2054 (Kamlager)** will establish a three-year Cal OES pilot program to distribute grants to organizations providing community-based assistance in response to local emergencies. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 1044 (Allen)** will phase out the manufacture and sale of class B firefighting foam containing PFAS chemicals by January 1, 2022, with longer phase out dates for refinery operations and airports. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

## Employment

**Assembly Bill 196 (Gonzalez)** would have expanded and extended the Governor’s **Executive Order N-62-20** pertaining to workers contracting COVID-19 illness while being required to work outside the home. The author has committed to amend the conclusive presumption out of the bill and make the presumption a rebuttable one, like the other three bills on this subject. *Status: 08/31/2020 Failed; Senate Third Reading File. SEE BELOW: Senate Bill 1159 (Hill)*

**Assembly Bill 664 (Cooper, Bonta, Gonzalez)** would have established a rebuttable presumption for COVID-19 illness as being covered by workers’ compensation for certain employees, including firefighters, peace officers and health care workers. *Status: 08/31/2020 Failed; Senate Third Reading File. SEE BELOW: Senate Bill 1159 (Hill)*

**Assembly Bill 685 (Reyes)** would allow Cal-OSHA to suspend operations of a business where there is an imminent hazard to employees based on a COVID-19 exposure at the workplace and would provide for notice of the exposure at a conspicuous place at the worksite. *Status: 08/31/2020 Enrolled; awaiting action by Governor Newsom.*

**Assembly 2147 (Reyes)** would allow a defendant who successfully participated in a county incarcerated hand crew to petition the court for dismissal of their conviction upon release. *09/01/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 1159 (Hill)** will codify **Executive Order N-62-20** and extend it until July 1, 2024, for firefighters, peace officers and health care workers. Part of a three-bill package with **AB 196** and **AB 664** that are being negotiated with the Newsom Administration. *Status: 08/31/2020 Enrolled; awaiting action by Governor Newsom.*

## Fire Prevention

**Assembly Bill 1659 (Bloom)** was a measure that Senate Democrats put together at the last minute as a wildfire prevention and preparedness funding proposal that would generate \$500 million annually. Funds would be generated by a fee on electric ratepayer bills in IOUs territories (PG&E, SCE and SDG&E) and go to various prevention and preparedness activities. *Status: 08/30/2020 Failed; Senate Third Reading File.*

**Assembly Bill 1873 (Committee on Budget)** was a Budget Trailer Bill. In the waning moments of the Session, certain legislative leaders sought to convert the measure into a wildfire relief bill. As proposed to be amended, AB 1873 would have provided \$500 million to augment various local government vegetation management and fire prevention programs and provide increased grant opportunities for local government. In a legislative version of a fire drill, the Administration worked to craft compromise language, but the whole effort ran out of time and the bill was left unamended in the Assembly as the Session concluded. *08/31/2020 Failed (Senate Budget & Fiscal Review Committee).*

**Assembly Bill 3074 (Friedman)** will establish an ember resistant zone within five feet of a structure as part of a revised defensible space in very high fire hazard severity zones and in the SRA. The bill has been amended to take effect contingent upon funding in next year’s state budget. *08/31/2020 Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 3164 (Friedman)** will establish a community wildfire risk model for application in the WUI. An advisory working group would be established, and like **AB 3074**, the bill would take effect upon being funded in next year’s state budget. *Status: Enrolled; awaiting action by Governor Newsom.*

**Assembly Bill 3256 (E. Garcia)** would have placed on the November 2020 Ballot an Economic Recovery, Wildfire Prevention, Safe Drinking Water, drought Preparation and Flood Protection Bond Act. *Status: 06/08/2020 Failed; Held in Assembly Rules Committee.*

**Assembly Bill 3267 (Smith)** will require Cal OES to coordinate with representatives of the access and special needs community to update the State Emergency Plan. *08/28/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 45 (Allen)** would have placed on the November 2020 Ballot an Economic Recovery, Wildfire Prevention, Safe Drinking Water, drought Preparation and Flood Protection Bond Act. *Status: 01/30/2020 Failed; Held as Assembly Desk.*

**Senate Bill 1156 (Archuleta)** would have required CAL FIRE to develop a model protocol identifying best practices for preventing fires caused by lithium-ion batteries. *Status: 09/01/2020 Failed; Senate Inactive File.*

**Senate Bill 1199 (McGuire)** would have established a Commission on Home Hardening with the responsibility of developing a three-tier certification system of fire prevention levels for structures in the WUI. *Status: 08/14/2020 Failed; (Assembly Governmental Organization Committee).*

**Senate Bill 1348 (Stern)** would have promoted home and community wildfire resilience through a series of fire prevention and vegetation management efforts at both the state and local level. *Status: 08/26/2020 Failed; Assembly Third Reading File.*

## Local Government

**Assembly Bill 398 (Chu)** would have imposed a \$275 per employee tax on all businesses with more than 500 employees. *Status: 07/01/2020 Failed; (Senate Governance & Finance Committee).*

**Assembly Bill 2107 (Rodriguez)** will provide for low cost securitized loan obligation notes for special districts. The bill also passed the Senate Governance & Finance Committee. *08/28/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 38 (Hill)** will extend until January 1, 2026, the provisions of the Sales and Use Tax law to ensure that the gross amount of fundraisers stay with all volunteer fire departments. The bill passed the Assembly Revenue & Taxation Committee this week. *Status: 08/30/2020 Enrolled; awaiting action by Governor Newsom.*

**Senate Bill 1386 (Moorlach)** will expressly provide that fire hydrants are a part of water service for the purposes of Proposition 218 to prevent a shift of this financial responsibility to local fire departments. *08/30/2020 Enrolled; awaiting action by Governor Newsom.*

## Taxation

**Proposition 15** – The “Split-Roll” tax constitutional amendment would tax commercial businesses with more than \$3 million in holdings based on the current value rather than the price at which it was purchased. Breaking these properties out of the Proposition 13 limits is estimated to generate between \$6.5 billion and \$11.5 billion for local government and schools. The Initiative is sponsored by the California Teachers Association, SEIU and Chan Zuckerman Institute. It is opposed by taxpayer groups and the business community. Expect a vigorous public campaign on Proposition 15.

## Federal Legislation

The Joint Legislative Task Force has been a strong supporter of federal legislation to provide additional funds for COVID-19 relief including provisions directing a portion of these funds to special districts. **HR 7073** by John Garamendi and **S. 4308** by Kyrsten Sinema and John Cornyn would require 5% of future Coronavirus Relief Fund allocations to special districts. It has been estimated that over \$800 million would be available for California special districts if a Federal COVID-19 relief package passes Congress, which includes the special district language.

## November 2020 General Election

Finally, there are two property tax propositions that have qualified for the November 2020 Ballot that have local government financial impacts. **Proposition 15** is the “Split Roll” tax constitutional amendment to remove commercial property taxation from Prop. 13 and place it under current market value. Breaking these properties out of Prop. 13 limits will generate between \$6.5 billion to \$11.5 billion for local government and schools.

**Proposition 19** would allow homeowners who are over 55, disabled, or victims of a wildfire or natural disaster to take a portion of their lower tax base with them when they sell their home and buy a new one. Proposition 19 would also limit the ability for new owners who inherit property to keep their family’s lower tax base. The new funds generated would be allocated to backfill counties experiencing a net loss and a Fire Response Fund would be established to support local fire departments.

## EMS Litigation Update

### EMS Litigation, AB 1705, and SPA 18-007 Updates

What a year it has been for the CalChiefs on the litigation front! As you may recall, CalChiefs filed a complaint in 2019 against EMSA with the Office of Administrative Law alleging that EMSA was utilizing underground regulations and enforcing these unlawful regulations against CalChiefs' members. After a lengthy review, and realizing that they were going to lose, EMSA filed a 280 certification which admitted these were underground regulations and, further, that they would not use or enforce them in the future.

It didn't take long for them to violate this certification by trying to enforce these underground regulations against CalChiefs' member agencies. CalChiefs filed a protest letter to EMSA, which they rejected, claiming they were within their rights to enforce the regulations in accordance with the statute.

CalChiefs then filed a lawsuit against EMSA in early 2020. The Sacramento Superior Court issued a tentative ruling against CalChiefs. However, Andrew Schouten of the law firm Wright, L'Estrange & Ergastolo orally argued to the court that the court was in error. That same day in court, EMSA entered into the record the proposed Chapter 13 regulations recently posted for public comment in their system in an attempt to moot our case. The court reversed itself and entered a peremptory writ of mandate on July 15, 2020 judgment that EMSA had been utilizing underground regulations and directing them to cease and desist from doing so in the future. Further, the judge has retained jurisdiction at CalChiefs' request and allowed CalChiefs to file for attorneys' fees and costs. This is a huge victory for CalChiefs' members.

The judge rejected a retroactive ruling request by CalChiefs to undo all past decisions that were made by the State and local EMS agencies. She was unsure if there was a statute of limitations on these numerous cases (our attorney states there is not) and she didn't have before her the specifics of each case, which is very reasonable on her part. The upside to this is that individual agencies now have the silver bullet they need to argue that their .201/.224 rights were taken from them using unlawful underground regulations (as found by a superior court in a statewide case that is published and may be cited). And since the EMSA has been using these underground regulations since the enactment of the EMS Act, it should not be too difficult to undo the 30 + years of damage on a case-by-case basis.

However, it took EMSA less than two weeks to violate the court's order and issue enforcement letters against the fire agencies in Sacramento County. As of the writing of this article, we are unaware if any additional letters have been sent.

Our attorneys are sending a demand letter to EMSA. If EMSA fails to comply, the CalChiefs' Board has authorized Andrew Schouten to file contempt of court charges against EMSA with the judge who retained jurisdiction. We will keep you posted as to future outcomes and direction by the Board.

EMSA issued proposed Chapter 13 regulations 24 hours before Dr. Duncan was sworn in as the head of EMSA. These proposed regulations were designed to strip the Fire Service of all of its .201/.224 rights and to basically drive the fire service out of the EMS business, at the benefit of the private sector. Further, these proposed regs were drafted almost five years ago, sat on them this long and took attempted to make them legal and enforceable.

As a direct consequence of the hard work by many of you who wrote letters and worked with our partner, California Professional Firefighters (CPF), as well as our attorneys Andrew Schouten and Ray Ramirez who responded to the extensive deficiencies and unlawful proposed regulations, EMSA pulled the proposed Chapter 13 regulations and are going to start over with a new stakeholder work group. Representatives of CalChiefs, CSFA, CPF, and CAL Fire will serve on this work group.

CalChiefs will be represented by Ed Rodriguez as primary representative on the workgroup and Kurt Hemke will be the alternate, and we will be the voice for Metro Chiefs, League of Cities Fire Chiefs Department, and Fire Districts Association of CA. Scott Clough will be the primary for CSFA (the alternate has not yet been determined). Meetings are scheduled to commence in late September, depending on fire season. EMSA's goal is to produce a consensus-based set of recommendations. EMSA cannot publish regulations without complying with the Administrative Procedures Act.

We have made it very clear to EMSA that, at a minimum, we want 1) a reset that says all public agencies that have provided or contracted for EMS services since June 1, 1980 (first response, dispatch, and transport) have .201/.224 rights; 2) .201 rights are exclusive; 3) ALS agreements are not required, but if a .201 agency chooses to enter into an ALS agreement, signing an agreement does not waive their .201 rights ; and 4) the Contra Costa County sub-contracting model is legal.

The important thing at this point is there are NO valid regulations in place surrounding the issues of .201. We recommend that most of you, who are affected, should aggressively assert and defend your .201 rights with your LEMSA and EMSA. If they do not comply, then seek relief through the court system.

CalChiefs has given you the basic tools and now it is up to you to use them.

### AB 1705 Update

AB 1705 (Bonta) was signed by Governor Newsom in October 2019 and will go into effect on January 1, 2022. This legislation is currently referred to as the Public Provider Inter-Governmental Transfer program (PPIGT). It will suspend the current Ground Emergency Medical Transportation (GEMT) program and remove all public providers from the Quality Assurance Fee (QAF).

The purpose of the PPIGT program is to capture supplemental revenue from not only the Fee for Service (FFS) side of Medi-Cal, but also from the Managed Care side of Medi-Cal. CalChiefs' representatives have been meeting quarterly with the California Department of Health Care Services to build the program for implementation in 2022.

There are many moving parts to this process. The State must create a pathway that removes the public providers from the QAF program and into the new program without interrupting the payments and collection of the tax. In addition, the last year of the QAF will be a partial year, as QAF and GEMT operate on a fiscal year while the new program is set to operate on a calendar year.

Another significant moving part is the determination of the new statewide rate for the supplemental reimbursement. Unlike GEMT, which reimburses on an individual basis, the new program will create a single statewide rate just for public providers. This will be based on the last year's audited GEMT cost reports.

The benefit to the public providers is the significant increase in the overall reimbursement compared to the GEMT program and QAF program combined. While the exact amount has yet to be determined, it is anticipated that the value to our members will be three-fold in comparison to what we receive now from the GEMT program.

## State Plan Amendment (SPA) 18-007 Update

SPA 18-007 was submitted to Centers for Medicare and Medicaid Services (CMS) and seeks to include the EMS costs of our suppression resources into the current GEMT program. Why are we expending the effort to do this if we are moving away from GEMT? The answer is simple: Until the PPIGT program has been approved, we need to maintain the GEMT program.

The inclusion of the suppression costs into the current GEMT program will allow us to retroactively (back to the submission date) collect these additional funds. More importantly, because the new rate under the PPIGT program will be based on the GEMT cost reports, having this approved will carry over to the new program. This suppression cost has been approved in every other state that has implemented a GEMT program. California, as the first state to adopt the GEMT program, was not able to capture that when we built this first program. And so now we have SPA 18-007. Once the SPA has been approved, it will be incorporated into the remaining cost reports and, once audited, will be included in the PPIGT rates.

## DRiSC Seeks Progress on Mutual Aid Technology Improvements

### Now in its Third Year, Pre-Positioning Credited as “An Amazing Program”

In 2018, CalChiefs helped to lead an unprecedented coalition effort to modernize California’s Mutual Aid System. Numerous fire service and local government partner organizations partnered to form Disaster Readiness for Safer Communities (DRiSC), which secured \$25 million in state budget funding for pre-positioning local government resources.

As part of the 2020-21 State Budget approved this June, Cal OES once again received \$25 million in state funding to continue the program into its third year.

At a February hearing before the Joint Legislative Committee on Emergency Management, Cal OES Fire & Rescue Chief Brian Marshall lauded pre-positioning as “an amazing program.” After approving 78 pre-positioning requests in 2018, Chief Marshall told the committee that Cal OES approved 125 pre-positioning requests in 2019, including 64 strike teams during last October’s wildfires.

In addition, Chief Marshall credited pre-positioning for the rapid deployment of resources to keep fires small (“the fires you never hear about”) and reducing overall Mutual Aid requests, which dropped from nearly 29,000 in 2018 to 5,200 in 2019.

With the success of the pre-positioning program, the fire service members of DRiSC have been focused on technology, another critical aspect of modernizing California’s Mutual Aid System.

In June, CalChiefs requested more than \$7 million in prior-year funding for pre-positioning be reallocated for technology enhancements. We urged the use of these funds to help transition the highly successful FIRIS pilot program into a statewide program and enable SCOUT to leverage innovative technologies (such as FIRIS and WIFIRE) to deliver real-time data about fire behavior and the location of fire assets.

In 2020, Cal OES formed DRiSC – California Fire Service Leadership Council Technology Committee to help address other, longer-term requests to Cal OES for the deployment of technology enhancements that improve intelligence, situational awareness, collaboration, and deployment of resources. This group will work closely with FIREScope’s Emerging Information Technologies group and the Intel Mobilization Unit at Cal OES.

Meanwhile, CalChiefs continues to advocate for the full deployment of AVL for all local government resources and is working with state and federal partners to fully implement the new mutual aid resource ordering system.

California’s Mutual Aid System continues to be widely recognized as the best in the nation, thanks in large part to the strong role of local government agencies. In the face of increasing threats to our communities, CalChiefs remains committed to working with its DRiSC partners to strengthen and modernize this system through stable funding, strong collaboration, enhanced workflows and the full adoption of technology tools.

## Northern Division Director's Report

### California Fire Chiefs Association Northern Division Report

It has been an honor to serve as your Northern Division Director this past year. I am not only grateful for the work my predecessor, Chief Prziborowski, accomplished during his tenure, but for his support in transitioning me into this position. My first year has been an exciting challenge and I look forward to the next three years.

It also has been a remarkable privilege and honor to serve on the Executive Board and work with such an amazing group of individuals who are dedicated to the California Fire Service. This past year there have been a number of important issues before CalChiefs, but perhaps none more consequential as the dedicated work on the CalEMSA front. There have been a number of individuals who have collectively and collaboratively worked to advance our interests and we have seen remarkable progress. I must also tip my hat of gratitude and respect to our labor partners at CPF, and in particular, President Brian Rice. As I have learned in my career, when labor and management partner, we can accomplish many great things.

The EMSA work is certainly not the only activity across the Northern Division. Your Area Directors and I regularly discussed the impacts of COVID-19 at the agency level and we learned that each agency experienced both the operational and financial aspects differently. Some agencies were more impacted economically than others. Likewise, the Black Lives Matter movement has impacted agencies quite differently; some agencies experiencing little to no impact, and others experiencing violence and civil unrest.

Sonoma County is experiencing fire service consolidations aimed at improving service to our communities. The Sonoma County Fire District (SCFD) was formed in April of 2019 and is the result of successful consolidation of four fire districts. They recently added the Russian River Fire District and are working on the annexation of the Forestville and Bodega Bay Fire Districts. SCFD serves an area of 200 square miles and a population of more than 75,000 from 10 fire stations. Additionally, the SCFD is submitting a bid to provide the emergency ambulance services contract in Sonoma County. Additional consolidations are taking place in northern Sonoma County and in the Sonoma Valley Fire and Rescue District.

In Marin County, voters passed a regional special tax that resulted in the creation of a Joint Powers Authority (Marin Wildfire Prevention Authority) that is focused on reducing the risks from wildland fire. The special tax will raise almost \$20 million annually and will be directed toward a variety of risk reduction work including notifications, evacuation, education, defensible space inspections, and vegetation removal.

Finally, I want to thank and acknowledge the strong work of two Area Directors who retired this year – Chief Bill Hack (Area 2 Director) and Chief Cullen Kreider (Area 1 Director). Though I had a short window of time to work with them both, I want to thank them for their dedication and contributions to CalChiefs and the California fire service. I also want to welcome aboard an old friend, Chief Bartee, who replaces Chief Hack as the Area 2 Director. We are currently seeking a replacement in Area 1 for Chief Kreider.

**In Service,  
Christian D. Tubbs**

## Southern Division Director's Report

### California Fire Chiefs Association Southern Division Report

The following is an overview of key accomplishments and areas of focus for the past year for the California Fire Chiefs Southern Division.

#### Area 1 South – Fire Chief Kevin Taylor (Montecito FPD), Area Director

San Luis Obispo, Santa Barbara & Ventura Counties

##### San Luis Obispo County

Accomplishments/Projects in Process:

- Implemented North County Community Emergency Response Team
- Received Homeland Security Grant for 43 sets of ballistic personal protective equipment
- Received Homeland Security Grant for 26 Bendix King Radios
- Regional grant application for Fire Prevention Safety Trailer
- Developing a countywide Evacuation Plan
- Developing a countywide Resource Coverage Plan
- Evaluating potential benefits of a Fire Alliance Ambulance Model

##### Santa Barbara County

Accomplishments/Projects in Progress:

- Implemented Behavioral Wellness Program, including the hiring of Peer Support Coordinator, Peer Support Training, and implementation of a First Responder Resilience Project
- Made significant progress towards Regional Fire/EMS Dispatch Center with the support of the Board of Supervisors

- Made significant progress towards an open, competitive bid process for Ground Ambulance Transportation Contract with an end goal of providing the right resource, at the right time, to the right patient in alignment with Triple AIM
- Participated in and managed Homeland Security Grants for USAR Equipment, Personal Protective Equipment, training props, helicopter firefighting equipment, and equipment to support our local Type 3 Incident Management Team
- Partnered with One805, a local non-profit that supports first responder agencies with needed equipment and supplies
- Type 3 Incident Management Team managed the first 90 days of the Santa Barbara County COVID-19 Pandemic in Unified Command with the County Executive's Office and Public Health

##### Ventura County

Accomplishments/Projects in Progress:

- Cooperatively implemented Fire Priority Dispatch through the Regional Dispatch Center
- Made significant progress on a countywide Peer Support Committee to advance firefighter mental health and wellness
- Provided in-house and community COVID-19 antibody testing labs staffed by department personnel and scheduled additional labs to accommodate high attendance
- Built a telemedicine platform for COVID-19 that is ready for deployment if necessary
- Successful regional coordination on multiple grants, with more than \$500,000 distributed and others pending in a competitive position
- Continued coordination with, and support of, local college fire academy programs to best prepare future applicants to local and regional agencies

## Southern Division Director's Report (Cont'd)

### Area 2 South – Fire Chief Silvio Lanzas (Glendale FD), Area Director

#### Los Angeles & Orange Counties

- All 30 of LA Area Fire Departments collaborated to build an ESRI based dashboard for information sharing throughout the COVID-19 pandemic. The dashboard has two submission and review features for “boots on the ground” firefighters as well as for Fire Chiefs and other decision makers. The dashboard gives real time information on positive firefighter cases, PPE levels, number of firefighters on quarantine and other relevant information. The dashboard was created by members of the LA Fire Department.
- The Los Angeles and Orange County fire departments maintained close collaboration with all fire departments throughout the COVID-19 pandemic. Los Angeles County established an Operational Multi-Agency Coordination System (OPMACS) to share information and ensure daily strength within the region.
- With funding from the LAFD Foundation, the LAFD recently purchased a Howe and Howe Thermite RS1 Firefighting robot after a similar “firefighting robot” helped turn the tide at the devastating Notre Dame de Paris fire. This innovative purchase represents another example of leveraging technology to move the fire service forward towards increasing safety and efficiency at emergency operations.
- The Orange County Fire Chiefs Association continues to focus on collaborative Operations, Training and Community Risk Reduction efforts, highlighted by Firefighter Health & Safety programs, including Behavioral Health, Wellness & Cancer Prevention.
- In August 2018, the “Everyone Goes Home” Firefighter Safety Program was introduced in Los Angeles as a collaboration between the Los Angeles Fire Department (LAFD), United Firefighters of Los Angeles City and the Chief Officers’ Association based on the National Firefighters Foundation’s “Everyone Goes Home® Life Safety Initiatives.” The initiatives are directed at reducing Firefighter fatalities, injuries, and illnesses (<https://www.everyonegoeshome.com>).
- The LAFD signed an agreement with Rosenbauer International to become the first Fire Department in North America and fourth in the world to purchase an electric fire engine based on our successful purchase with the Austrian company for our five LAX ARFF Crash Rigs a few years ago. The innovative purchase represents an example of progressing the fire service industry towards a new solution based on improved operational performance and organizational safety.
- Looking ahead: Expedited Resource Response (ERR) Plan Pilot Program. Recent experience (Thomas, Woolsey, and Saddleridge Fires) and After Action Report(AAR) have confirmed that when wind-driven wildland fires occur within Orange, Los Angeles, and Ventura Counties, there is a need for a mass number of engine companies and aircraft to immediately respond (within first 1-2 hours) in order to preserve life and property. Waiting for a formal order/request to be received results in a significant delay of resources that are immediately needed. The current method/process/system of requesting and mobilizing resources is not designed to nor capable of immediately (within minutes) exchanging a significant number of resources across the Orange County, LA County, and Ventura County Operational Areas. Wildland fires are moving at a faster rate of spread; therefore, there is a need to expedite resources to make an effort to align with the fire’s movement. The Expedited Resource Response (ERR) Plan pilot program is intended to improve the California Fire and Rescue Mutual Aid System.

### Area 3 South – Fire Chief Ray Gayk (Ontario FD), Area Director

#### San Bernardino & Inyo Counties

The Area 3 South Area Director will transition from Fire Chief Ray Gayk, who was elected to the President-elect position this coming year, to the newly appointed Area Director, Deputy Fire Chief Nathan Cooke (Chino Valley FPD). Over the last year the Fire Agencies in Area 3 South (San Bernardino and Inyo Counties) have been working on several exciting projects including:

- The ambulance transport contract for the County of San Bernardino is being evaluated at the system level and the County Fire Chiefs Association has been heavily involved with that process. We are hoping to continue the collaborative effort through this evaluation resulting in a better ambulance transport model for all our county cooperators and the citizens we serve.
- All the County of San Bernardino Fire agencies are participating in a County Wide Incident Management Team to respond to COVID-19. This team has developed several new innovative ideas and strategies to deal with the pandemic including:
  - Alternate Destination Protocols
  - Alternate EMS Delivery models during a surge
  - Alternate Dispatch models
  - Several live data bases to manage PPE, equipment, and personnel needs county wide
- Developing a CAD-to-CAD system for San Bernardino and Riverside Counties
- Developing an Emergency Communication Nurse System (ECNS) program for Alpha and Omega Calls through our Emergency Medical Dispatch protocols.

### Area 4 South – Fire Chief Don Butz (Lakeside FPD), Area Director

#### Imperial, Riverside & San Diego Counties

This year, like the rest of the world, dealing with, responding to and addressing COVID-19 and the related impacts has captured much of Area 4’s energies and efforts. Another project with impacts in the Area has been the transition from ROSS to IROC. Even with the additional, unexpected workload the individual counties were able to accomplish the following:

- Imperial County
  - Continue to strengthen auto aid within the county and with Yuma, AZ
  - Continue to build out the 800 MHz communications system
- Riverside County
  - Working toward completing a CAD-to-CAD connection between county fire agencies, as well as with San Bernardino County fire agencies
  - Re-established the Arson Task Force as a section within County Fire Chiefs
  - Conducted the Riverside County Leadership Academy for potential and existing chief officers
  - Conducted the annual county wide wildland training (RT-130)
  - Completed the County Highrise Annex and drills pending
  - Fostering relationships within Riverside County with more than 50% turnover with Fire Chiefs

- San Diego County
  - Finalize and implement the use of Mutual Threat Zones throughout the entire county with Cal Fire
  - Development of a standardized evacuation policy with law enforcement utilizing the Public Safety Map Grid, including conducting multi-discipline, multi-agencies training and drills
  - Collaboratively developed an RFP to upgrade and re-build the Regional Communications Interoperability Project (CAD-to-CAD)
  - Continuing to update and modernize the VHF radio system in the County including upgrade repeaters and adding new repeater sites

### **Area 5 South – Fire Chief Anthony Galagaza (Bakersfield FD), Area Director**

#### Kings, Tulare & Kern Counties

Area 5 South encompasses all departments within Kings, Tulare and Kern County. It has proven to be an overwhelmingly busy and tragic year for Area 5 South. The Area Director is transitioning, as Fire Chief Galagaza begins to serve as the Southern Division Director and we welcome Deputy Fire Chief John Frando (Bakersfield FD) into the Area 5 South Director position.

- As with most departments and jurisdictions, the COVID-19 spread added an unexpected burden to department personnel. With each county and city fire department experiencing both internal and external issues in regard to the COVID-19 spread, the pandemic created both stress in call volume and staffing. Additionally, the wildland fire season throughout the state is spreading many departments thin.
- Each department in Area 5 South is participating in firefighting at numerous complex fires in various locations and assignments. The Kings, Tulare and Kern County departments expect to remain inundated throughout the rest of 2020, but the hope is to collaborate further in the future as a cohesive area with monthly phone calls to assess needs and more extensive information gathering.
- On February 18, 2020, Fire Captain Ray Figueroa and Firefighter Patrick Jones of the Porterville Fire Department (Tulare County) died in the line of duty while battling a massive fire at the Porterville City Library. Hundreds of firefighters from throughout the state gathered in formation to pay their respects to our fallen brothers.
- In early March, a fundraiser to assist the families of the fallen was held at Bakersfield Fire Station 1 and was met with many heartfelt condolences and support.

### Mission Statement:

*To be an effective support system to all fire service professionals by utilizing the skills of our profession to strengthen administrative operations.*

### End of Year Report / Accomplishments

This past year, the Northern and Southern Divisions continued their collaborative efforts to provide high quality, relevant training for their members through quarterly meetings. We believe that offering applicable and interesting training strengthens the ability of each administrative professional to more efficiently serve their organization. The Executive Boards foster active participation among members and encourage new membership. We also serve as conduits of empowerment, inspiration, comradery, progression, and encouragement.

The Annual AFSS Educational Forum was cancelled due to the COVID-19 pandemic. Both divisions continue to forge strong relationships with the CalChiefs Executive Board and Section leaders. AFSS maintains a presence at the CalChiefs annual strategic planning meeting and conference. AFSS strives to keep our members and their agencies knowledgeable on emerging matters facing California's fire service.

The Southern Division recently updated their Standard Operating Guidelines, increasing fees to keep up with inflation, added a new scholarship for life members, and created an online payment option to reduce paper waste.

The Northern Division is working on strengthening the Education and Training Committee and recruiting members to fill vacant positions on the board and on committees. We have many new members who are learning about the benefits of AFSS membership. The Executive Board is focusing on outreach to Fire Chiefs and non-member admins who may not know we exist.

Both divisions updated the By-Laws to add a Member-at-Large. In addition, the Northern and Southern Divisions are working together on drafting a 3-year strategic plan. We expect it will be completed by the end of 2020.

## Administrative Fire Services Section (Cont'd) 2020-2021 Executive Boards

### Goals

AFSS Executive Board of Directors, for both sections, have established the following goals/objectives for 2020/2021:

- Provide succession planning to fill current present and anticipated vacancies.
- Promote educational opportunities for all fire service administrative professionals in a rapidly evolving, technologically advancing fire service by providing workshops, seminars, and the annual Educational Forum.
- Continue to seek new ways to increase membership and increase membership by 15% in the 2020/21 year through strong outreach. membership drive and have great confidence that we can increase membership by strong outreach.

- Continue to conduct quarterly meetings/trainings through Zoom and encourage Fire Chiefs and their staff to attend our trainings.
- Continue to maintain and improve the AFSS website, as well as our Facebook page, promoting better communication and information sharing among our members and beyond. In an effort to reduce paper, we are striving to have most, if not all, registrations, paperwork, etc. available online.
- Create a new brochure with more information about AFSS and the benefits we provide to administrative staff. Create a testimonial video to be shared electronically with every fire agency in the state.

We would like to invite you to join us at our quarterly trainings and our annual Educational Forum in 2021.

### Mission/Initiative

Increase the consistent sharing of Public Safety Communications information among all Fire Communications Centers in California.

### Primary Accomplishments

Continued to represent and support the CFCA Legislative Committee on many 9-1-1 issues and legislation through various committees, legislative hearings and the State 9-1-1 Advisory Board

### Other Accomplishments

- Participated in the Public Safety Coalition Group regarding legislation, comprised of representatives from law enforcement, fire and the CPUC.
- Supported the Annual Mobile Communications Center Rally in Sacramento.
- Continued member outreach programs to increase membership.
- Continued cooperation with other Public Safety Communications groups:

- Continued to connections with the California Chapter of the *National Emergency Number Association (CAL-NENA)*, The *Northern California Chapter of the Association of Public-Safety Communications Officials (NAPCO)*, and other organizations supporting communications issues.
- Continued participation on the 9-1-1 Advisory Board and Long Range Planning Committee.
- Engaged our Law Enforcements partners in discussions and issues as needed.

### Continued Goals for 2020

- Continue to be active in the CFCA Legislative Committee.
- Continue to engage and support the other CFCA sections as needed.
- Continue to seek new ways to increase membership and participation.

## Emergency Management Section

### President

Steven Hall, Fire Chief  
Central Fire District of Santa Cruz County

### Northern Area Director

Vacant

### Southern Area Director

Vacant

### Mission Statement

To work effectively with career, combination, and volunteer organizations in an effort to increase collaboration and promote best practices among fire-based Emergency Managers.

### Focus

The primary focus of the Emergency Management Section is to develop a common operating picture among stakeholders, which is critical for an effective and efficient emergency response.

Part of how emergency managers innovate and improve is through networking, identifying industry standards, and working with our counterparts - locally, statewide and across the nation.

### Accomplishments

Although we have all experienced setbacks in conducting in-person meetings due to COVID-19, the EM Section continues to represent CalChiefs virtually on the Cal OES Standardized Emergency Management System (SEMS) Advisory Board as well as the Cal OES Homeland Security Advisory Committee spearheaded by Director Ghilarducci.

### Goals

- Recruit Section Area Directors; develop a succession plan for the upcoming year.
- Increase interest within the Section; secure a greater EM membership base.
- Emphasize alert and warning; mitigation; building an all-hazards exercise program.
- Commit to working with our communities and civic leaders on emergency and disaster preparedness.

## Emergency Medical Services Section

**Bernard Molloy II, Division Chief**  
Lakeside Fire Protection District

### Northern Area Director

Ken Johnson, Division Chief, Stockton Fire

### Mission Statement

The California Fire Chiefs Association EMS Section is established to review, comment and recommend policy position concerning emergency medical services to the CalChiefs Executive Board of Directors. The EMS Section also represents and educates constituents of the fire service who oversee the fire-based EMS systems.

### Vision Statement

We strive to make decisions on best practices for prehospital care, using evidence-based data, free of political or geographic bias, and drawing upon the experience, knowledge, medical insight, and leadership of the entire fire service.

### EMS Section Overview 2020

CalChiefs EMS Section members are a group of talented, dedicated and informed personnel representing your needs and interest. We are highly trained and experienced Fire Chiefs, fire department personnel, EMTs, paramedics, nurses, doctors, medical directors, ER physicians, and public administrators. We have representatives who attend meetings on the EMS Authority Directors Advisory Group (DAG), the EMS Medical Directors Association of California (EMDAC), the Emergency Medical Services Administrators Association of California (EMSAAC), the State Trauma Advisory Committee (STAC), FIRESCOPE EMS Group, EMS Legislation, and Commission on EMS.

We continue to strengthen our presence by remaining engaged in all aspects of EMS which affects patient care. This includes Community Paramedicine pilot programs, monitoring EMS contract services for public and private partnerships, legislative issues affecting EMS and the Fire Service, input on EMSA policy/guidelines open for public comment, core measures/ data collected by EMSA, and by supporting the California Nurses and Emergency Professional (CalNEP) group for higher medical oversight within Fire-based EMS systems.

### Southern Area Director

Presently in elections for position

### The EMS Section work plan for 2020 included the following topics:

- Developed and implemented state and local plans for response to the global pandemic.
- Monitored and actively advised membership on the progress of the Writ of Mandate relating to EMSA's Underground Regulations, Chapter 13 changes and other state level issues.
- LEMSA-related issues and their effect on fire departments/ districts.
- Monitored and provided assistance related to .201/.224 decisions.
- Provided continued support for private/public partnerships.
- Continued support for local agencies related to GEMT/ IGT/ QAF participation.
- Remained engaged on legislative bills, laws, lawsuits, contracts and regulations affecting EMS systems.
- Provided representation on all EMS-related State Committees.
- Remained engaged on legislative bills, laws, lawsuits, contracts and regulations affecting EMS systems.
- Provided representation on all EMS-related State Committees.
- Educating and informing the fire service community on EMS-related topics and issues.
- Provided guidance, supporting materials and assistance with fire agencies threatened by local control and LEMSAs stepping outside of the medical oversight/regulations area and into operations.
- Sharing information and impacts on EMS delivery by LEMSAs and EMSA as it is imperative the Fire agencies monitor the successes and challenges of these models.
- Strengthening partnerships between all EMS stakeholders.
- Provided successful training opportunities at EMS Section meetings.
- Continue engaging the fire community and actively recruiting members to grow the membership of the EMS section.
- Updated By-laws for the division.

The dedicated Chief Officers, Captains, Nurses, Paramedics and Medical Directors who represent California's Fire-based EMS system worked tirelessly to ensure the people of California receive the emergency medical services they deserve. We appreciate the active involvement of all our membership as well as your continued support.

### Presidents' Report

This has certainly been an unprecedented year that has not only impacted the California Fire Prevention Officers but also our nation as a whole. We began the year with a global pandemic that that shutdown our economy and changed our way of life and traditional methods of conducting business. This year's California Fire Prevention Institute (CFPI) nearly fell victim to the pandemic, missing a state-ordered shutdown of assembly occupancies by one week. At the time, we were pleased to have had this in-person conference; we were especially grateful once we witnessed all other large conferences (Cal Chief's, ICC, NFPA, and many others) get canceled in the ensuing months.

Although the pandemic has tragically resulted in the loss of life and devastated our national, state and local economies, it has led to innovative ways in which we conduct business. Innovation continues to evolve and keep us all moving forward. One of these new methods is utilizing technology to host virtual meetings. For the first time in the organization's history, both NorCal and SoCal Fire Prevention Officers are holding their monthly membership meetings via the digital meeting platform Zoom. While virtual meetings are no replacement in-person monthly committee meetings, social networking and being able to have lunch together, they do keep us all connected in these difficult times. This is a good example of how this organization continues to be strong, efficient and industry leaders in community risk reduction. It has been said that necessity is the mother of invention. We are learning new ways to reach out to more people and provide a higher level of training to those that are unable to attend our meetings in person.

This organization has always been at the forefront of training fire prevention officers across the State of California. This is due to the many individuals that dedicate their time and passion to fire and life safety.

Fueled by our dedication and passion, we are expanding our organization, connecting with a larger audience reaching those who may not have been able to participate in the past. At this point in our history, both the NorCal and SoCal Executive Boards felt it was necessary to restructure the CFPI committee. Although this was a difficult decision for us to make, the Northern and Southern FPO Boards felt it was necessary to move in a different direction under new leadership.

There will be challenges ahead of us, but we are excited to see what the future holds for all of us in the years to come.

In these challenging times that have impacted all of our agencies, the creativity and innovation you have all demonstrated allows us to meet these challenges head-on and continue to protect our communities. We believe all things happen for a reason, and no matter what is going on around us, it is still a pleasure and an honor to serve this organization in this capacity. We are grateful to serve alongside the dedicated board members from both NorCal and SoCal, committee members and the membership. Our relationship is stronger than it has ever been and great things will continue to happen so long as we work together. We are steadfast in our commitment to ensuring the best training and fire and life safety education is provided to our members.

**Mike Payton, President**

### Section Report

First, our condolences to all our first responders, medical support personnel, fellow mechanics/technicians, support vendors we have lost to COVID-19, and the many more seriously injured from it. Life as we know it has drastically changed.

In the face of COVID-19, with all CDC requirements being practiced, the mechanic/technicians section continues to ensure that emergency vehicles and equipment used by our fire and rescue personnel be maintained in top operational condition. This year continues to be a challenge to do this safely. Our highest priority is the safety of all our firefighters, mechanics/technicians, fellow coworkers, and support vendors operating, repairing, servicing, and maintaining life safety emergency vehicles and equipment.

Our second objective is to ensure that when these vehicles leave the fire repair shop, they are safe and road worthy. The level of training and education required of our fire mechanics/technicians is vast. Their technical skills, experience, knowledge and understanding of what this equipment does on the fire line, or at a rescue scene, is crucial to properly maintain emergency vehicles and specialized equipment.

This year we ushered in 2020 with hope, enthusiasm and visions of great training and networking classes and seminars until February rolled around. It was then that we began hearing about a global pandemic. By March, COVID-19 had gripped our country with fear and everything, except "Essential Workers and Activities," was locked down. Unfortunately, mechanics/technicians training modules were not deemed an Essential Activity. For this reason, we have not held any form of training classes since March. Because we do not know when we'll be able to hold in-person gatherings due to COVID-19, we are looking into holding virtual training sessions.

We also had to cancel the 50th Anniversary of the California Fire Mechanics Academy for 2020. This meant we haven't been able to move forward with the credentialing process for fire mechanic/technicians.

We recently learned that the January 1, 2021 deadline of the new State Fire Training task book program for the mechanics/technicians section was extended to January 1, 2022.

At this time, the California Fire Mechanics Academy is set to resume the fire mechanics/technicians training classes this November 2020. They will only be holding certification classes. The classes would be held at the Ben Clarke training facility in Riverside California. The California mechanics/technicians need to take these classes to complete the credentialing process. Class size will be reduced by 50% to adhere to CDC guidelines.

## Fire Service Mechanics Section 2020/21 Goals

The goals in the 2020/21 report for the Fire Service Mechanics Section:

1. Live with and get past COVID-19 safely, and responsibly.
2. Encourage, for the protection of all, emergency vehicle shops and repair facilities to adopt a standard whereby any emergency vehicle and non-emergency vehicle entering these shops be sanitized and/or cleaned prior to arriving to said shops.
3. Re-establish monthly Fire Service Mechanics Section training sessions, as early as this September, using technology for virtual training where possible.
4. Enhance communications between other CalChiefs sections as we did with our Operations Section.
5. Enhance the use of technology to allow members to tune into training classes they cannot attend in person.
6. Adopt the use of *the 2020 edition* of NFPA 1071, Standard for Emergency Vehicle Technician Professional Qualifications.

The Fire Service Mechanics Section is dedicated to the men and women involved in emergency vehicle maintenance and to CalChiefs, Southern California Fire Mechanics Association, Northern California Fire Mechanics Association, California Fire Mechanics Academy, and California State Fire Marshal's Office Training Section. ***"For making the tough job of saving lives, property, and fighting fires safer" (JL).***

***Respectfully submitted,***

***Fire Service Mechanic Section Presidents George Solano and Rick Nogueira***

## California Metropolitan Fire Chiefs Section

### 2019-20 Board of Directors, Elected Officers, and Sub-Sections

Board of Directors (Charter Member agencies)	
Alameda County Fire Department	Orange County Fire Authority
Contra Costa County Fire Protection District	Sacramento Fire Department
Fresno Fire Department	Sacramento Metropolitan Fire District
Kern County Fire Department	San Bernardino Fire Protection District
Long Beach Fire Department	San Diego Fire-Rescue Department
Los Angeles County Fire Department	San Francisco Fire Department
Los Angeles Fire Department	San Jose Fire Department
Oakland Fire Department	Ventura County Fire Department
Elected Officers	
David Rocha, Alameda County Fire Department (Chair)	Brian Fennessy, Orange County Fire Authority (Vice-Chair)
Sub-Sections	
Medical Directors	Public Information Officers
Liaison	
David Rocha, Alameda County Fire Department – CalChiefs Executive Board Member-at-Large	David Rocha, Alameda County Fire Department – State Board of Fire Services (Appointment)
Richard Rideout, Los Angeles Fire Department – Statewide Training & Education Advisory Committee	

### Mission

To further the collaboration and professional advancement of the fire service to ensure and maintain greater prevention and protection of life and property from fire, natural and human caused disaster, or other sudden emergencies.

### Strategic Objectives

The Board of Directors of the California Metropolitan Fire Chiefs has established the following strategic objectives to meet the mission of the corporation:

- Assemble for regularly scheduled meetings to discuss ways and means for the betterment of the fire service and to develop a bond of friendship and understanding among its members
- Develop and provide programs dedicated to the betterment and continual well-being of the fire service and the attainment of its goals and objectives
- Cooperate with other stakeholder organizations to promote programs that further the goals and objectives of the fire service and the greater public safety of those served in California and with our mutual aid partners in the region
- Provide for review of legislative developments and react to those affecting the fire service, in a non-partisan, coordinated and approved manner

- Collaborate with other stakeholder organizations to develop appropriate legislation as approved and/or directed by membership, identify supportive legislators, and take steps necessary for successful introduction and passage
  - Support and encourage the delivery of pre-hospital emergency medical services by the fire service to relieve human trauma
- Serve as the representative for the section with other stakeholder organizations.

### Charter Membership and New Membership

- The 16 Charter Member agencies are listed have been grandfathered in under the Bylaw language established in 1975 and are exempt from new membership criteria.
- New members shall be limited to persons who are fire chiefs of fire departments within the State of California that provide fire suppression and fire prevention services to a city, district, authority or local political subdivision, including cities and unincorporated areas and employing in their respective departments more than 350 full-time paid firefighters. In the event downsizing occurs within a member fire department and the department no longer meets the criteria as defined, the department's membership would continue until such time that the fire chief retires or otherwise separates from the department.

## Operations Section

CalChiefs Operations Section comprises fire service professionals representing organizations with varying and diverse service areas. Members of the Operations Section represent career, combination, and volunteer fire agencies and the operational concerns of those organizations. It is a dynamic group committed to maintaining and improving the effectiveness and safety of all-risk emergency responders.

### President

Dan Munsey, Fire Chief  
San Bernardino County Fire Protection District

### Vice President

Trever Martinusen, Deputy Chief  
Bakersfield Fire Department

### Treasurer

Dan Harker, Fire Chief  
Loma Linda Fire Department

### Special Projects Director

Ray Navarro, Fire Chief (Ret.)

### Northern Director

Nick Luby, Deputy Chief  
Oakland Fire Department

### Southern Director

Nick Ordille, Assistant Chief  
Carlsbad Fire Department

### Past President

Jeff Armstrong, Fire Chief  
Rio Vista Fire Department

### Special Projects Director

Brian Roberson, Battalion Chief  
Carpinteria Fire Protection District

## Mission Statement

*To work effectively with our members, partner Sections, and affinity groups to solicit ideas for the improvement of the California Fire Service and to disseminate information that prepares firefighters to fulfill the mission.*

## End of Year Report/Accomplishments

During the past year, the Operations Section has continued to grow and diversify its membership. Members have been involved with monitoring changes in CICCIS, facilitating information exchange, ensuring communication and cooperation with FIRESCOPE and hosting the CalChiefs Ops Section Technology Summit. As we seek to grow and address more of the Fire Service operational impacts, opportunity still exists to expand our membership and seek involvement in issues that affect operations in the California fire service.

### The areas of focus for the Operations Section are:

Emerging Technology  
Labor Management  
Legislation  
Firefighter Health and Safety  
Credentialing and Qualifications (CICCIS)  
Emerging Trends  
FirstNet  
Succession Planning

## 2019 Accomplishments

In completing our mission, the following goals were accomplished:

- Enhance communication between other CalChiefs sections.
- Collect activities and ensure coordination of activities between sections.
- Increase Operations Section general membership.
- Conduct an Operations Section “needs assessment” survey.

- Hosted an Operations Section “CalChiefs Operations Tech” Summit in partnership with CalOES and FIRESCOPE.
- Hosted an Operations Section “Breakout” session during the Annual Conference.
- Convened to discuss the best practices in fire service operations.
- Completed twelve of fourteen chapters of a California Fire Service Operations Manual.
- In conjunction with the International Associations of Fire Chiefs, developed a series of COVID-19 reporting dashboards for PPE, personnel exposures, and COVID related expenditures.

## 2020 Goals

In the upcoming year, four goals have been established.

- 1) Foster opportunities for operations chiefs of the State of California to understand emerging technology and impact to operations.
  - 1.1. Advocate for SMART implementation of technology (Strategic, Manageable, Accessible, Reliable, and Timely).
  - 1.2. Advocate for technology platforms to integrate with common operating platforms across devices, jurisdictions, and boundaries.
- 2) Ensure operations chiefs have the KSA's needed to continue to qualify our members with CICCIS certifications.
- 3) Develop current and future fire service leaders who will continue the advancement of the California Fire Service.
- 4) Cooperatively engage with other CalChiefs sections to ensure operations section collaboratively furthers CalChiefs leadership's goals and objectives.

## CalChiefs Training Officers

### Developing and Coordinating Training Resources in California

#### Mission Statement

Support the collaborative training efforts to our firefighters and first responders state-wide as we work together to build, sustain, and improve our capability in preparing for, respond to, and mitigate all-risk hazards.

#### Update

The California Training Officers Association (NorCal & SoCal) continue to partner to provide training opportunities, promote membership growth, and share industry best practices.

In 2020, our focus was to continue with quarterly training meetings and opportunities. CalChief's Training Officers were poised to ramp up our planning efforts to celebrate the Fresno Training Symposium's 25th Anniversary. Unfortunately, due to COVID-19, and in line with industry standard, we cancelled the training symposium. CalChief's Training Officers are disappointed with the pause in the symposium, but recognize the opportunities to ramp up in 2021. We will be back better, stronger, and bigger than ever!

The 2019 training symposium was successful with more than 500 firefighters participating in classroom and hands-on training. Stay tuned as we work to expand the symposium in recognition of the 25th Anniversary.

Special thanks to all our partners who work tirelessly to support the greatest training symposium in the great State of California. We appreciate the hard work performed with passion as our desire is to strengthen the knowledge, skills, and abilities of the California Fire Service.

#### Quarterly Meetings and Training Supported by the Northern & Southern Division

- Quarterly meetings were cancelled as we all focused our efforts on crushing COVID-19
- The Annual planning meeting attendance was reduced and conference calls and virtual formats were implemented to protect our members

#### Executive Board of Directors (North)

**Past President**  
John Walsh, Division Chief  
Alameda County FD

**President**  
Alan Ernst, Fire Chief  
Modesto FD

**First Vice President**  
Larry Savage, Ret.  
Sacramento Metro FD

**Second Vice President**  
Larry French, Battalion Chief  
Fresno FD

**Secretary**  
Bradley Arganbright, Battalion Chief  
Alameda County FD

**Treasurer**  
Ed Bartley, Captain  
Modesto FD

#### Executive Board of Directors (South)

**Past President**  
Kevin Albertson  
Bakersfield FD

**President**  
Chris Coates, Battalion Chief  
Costa Mesa Fire & Rescue

**First Vice President**  
Eric McCoy, Battalion Chief  
Huntington Beach FD

**Second Vice President**  
Andrew Kibby  
Cal Fire, Riverside

**Secretary**  
Garrett Huff, Battalion Chief  
Santa Barbara County FD

**Treasurer**  
Bret Davidson  
Rancho Santa Fe FPD

#### 2020 Goals

- Increase memberships
- Electronic payment for memberships, symposium, and training events
- Continue to advance the Strategic Plan, as outlined in 2019
- Continue advancement of Firefighter behavioral health and cancer detection/prevention by incorporating innovative training into quarterly meetings and our Annual Training Symposium

# Buyers' Guide

## EXHAUST REMOVAL

### Air Vacuum Corporation

P.O. Box 517  
 Dover, NH 03821-0517  
 Ph: (603) 743-4332 • Fax: (603) 743-3111  
 sales@airvacuumcorporation.com • www.airvac911.com  
*Control the spread of hazardous contaminants with the AIRVAC 911® Engine Exhaust Removal System. Protect 100% of the apparatus bay area by constantly monitoring and removing exhaust and particulate matter from your station. No hoses or vehicle attachments, no building modifications and no interference with daily operations. Mitigate Hot Zones, address off-gassing and counter secondary pollutants. AIRVAC 911® is fully automatic and doesn't require ducting or outside exhausting. Plus, flexibility to move vehicles from bay-to-bay. AIRVAC 911® is made in the USA. Meets NFPA 1500, OSHA, IBOCA, EPA, GSA Standards.*  
 Request a free proposal: [www.airvac911.com](http://www.airvac911.com) or (800) 540-7264.

## FIRE EQUIPMENT

"The Leader of the Pack"

### Husky® Portable Containment

7202 SE International Court, P.O. Box 3404  
 Bartlesville, OK 74006  
 Ph: (800) 260-9950 • Fax: (918) 333-2004  
 sales@huskyportable.com • www.huskyportable.com  
*Husky Portable Containment is a leading manufacturer of Firefighting and Environmental Safety Products. Our specialty is portable water tanks, self-supporting tanks, salvage covers, de-con pools and showers plus many more products related to the industry. We have a patent on our "Easy Lift Handles" that are welded to the floor of all our folding frame tanks which help remove standing water and helps fold the tank. Husky has other folding frame tanks including double folding tanks, Leading Edge® tanks, Skinny® tanks-which are used on one lane back roads plus our new patent pending Extra Capacity PRO500® tank.*

## WILDLAND FIREFIGHTING EQUIPMENT & SKID UNITS

### National Fire Fighter Corporation

1574 W. 6th Ave  
 Eugene, OR 97402  
 Ph: (800) 423-8347 • Fax: (800) 891-1982  
 info@nationalfirefighter.com • www.nationalfirefighter.com  
*From the wildland urban interface to the station, we've got the clothing, gear and tools you need to outfit your crew. Our dual- and tri-compliant stationwear clothing is designed for the special needs of interface firefighting, rescue and EMS. Personal protective gear, casual clothing, line packs and duffle bags, lighting, wildland firefighting equipment, mobile attack skid units, pumps, portable tanks and more. We keep a high volume of inventory on the shelf for your immediate needs. Check us out at [www.nationalfirefighter.com](http://www.nationalfirefighter.com) or call us at (800) 423-8347.*

*Arthur J. Glatfelter, Founder*

*First on the scene ... still responding.*

Arthur J. Glatfelter was the first to design a complete insurance program for emergency service organizations. Today, over twenty years later, VFIS continues to offer a comprehensive approach to

unique insurance coverages which includes responsive claims services and safety and loss control programs.

For more information, please telephone or write us.

# In 1969

Volunteer Firemen's Insurance Services® pioneered specialized insurance coverages designed to meet the unique needs of America's emergency service organizations. VFIS today provides insurance, education, training and consulting to more emergency service organizations in North America than any other provider.

# Trust

Trust runs deep and holds everything together  
—for those under your command and your family.

An estate plan holds your legacy. Secure yours by learning more about estate planning with Firefighters First Trust Services, in partnership with Members Trust Company. We understand the Fire Family better than anyone else.

Trust Services

Trust services are provided by Members Trust Company, a federal thrift regulated by the Office of the Comptroller of the Currency. Trust and investment products are not deposits of or guaranteed by the trust company, a credit union or credit union affiliate, are not insured or guaranteed by the NCUA, FDIC, or any other governmental agency, and are subject to investment risks, including possible loss of the principal amount invested.
